

# Our Animal World

## Why are animals different?

### Geography

The children will use mapping skills to locate and identify different continents of the world, weather patterns experienced and compare them. They will also look at physical features and how the climate and terrain effects the animal life in different parts of the world, comparing a non-European location with England.

### Design Technology

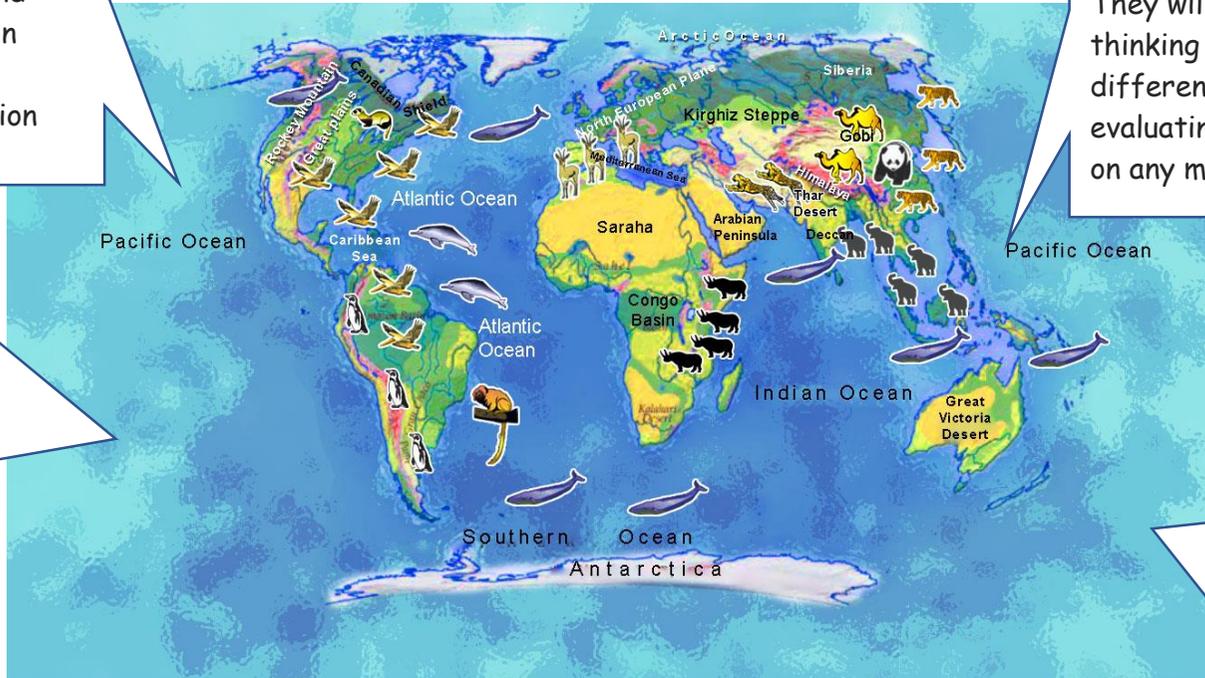

This term the children will design and sew their own animal hand puppet. They will use observational skills of different animal appearances and incorporate them into their design. They will develop their perseverance, thinking about how to create different effects as well as evaluating their work and commenting on any modifications they make.

### Science

The children will learn about animals, their offspring and life cycles. They will study habitats in the local environment and see how it effects the animals that live there. They will look at the effects of exercise on the body and describe the importance of hygiene and begin to understand different food types.

### Art

The children will look at the variety of animal patterns from across the globe and will explore the patterns using different mediums, e.g. pastel, paint and clay. They will make a clay tile, based on an animal pattern of their choice.

### Computing

The children will develop their photography skills, learning to take, store, organise, manipulate and retrieve digital content. They will use their skills in the field during our trip to Dartmoor Zoological Park, linking in their research skills back in school.

### Religious Education

The children will learn about religious signs and symbols from the Christian and Jewish Faith. They will develop their understanding of the ways in which people show their beliefs.

### Physical Education

The main areas of PE this term will develop ball skills, initially as an individual and then moving onto partner work and team play. They will also have time to advance their athletic skills of running and jumping.
